

## Hybrid Approach

# SAP S/4HANA® Selective Data Transition

### Your Current System(s)

### Challenges within Your Current ERP System(s)

- Highly customized system landscapes
- Incompatibility between systems leads to inefficiencies
- High costs of maintenance

### You Move to

SAP S/4HANA

### Benefits of SAP S/4HANA Selective Data Transition

- Phased move – no big bang or disruption for your daily business
- Low maintenance and low hardware costs
- Optimized system landscape (all-in-one)

### You Need to Consider

- Transition parallel to daily workload: IT-resources to support various ERP systems during transition period
